

# Madcap is here!

\*Milk Analysis, Data Capture And Processing

## Milk Supply Chain Management Software

### The complete solution. Software modules include:

- Transport Management and Route Scheduling
- Laboratory Management
- Quality Control
- Production Planning
- Milk Supply Procurement payment
- Loan and Deduction Management
- Members/Equity Register
- Management Reporting
- Producer Internet Portal
- RFID
- Asset Management
- Job Management
- Work Flow

### Madcap is:

- System of choice for 40% of the World's tradable dairy market.
- Dominant throughout the New Zealand and Australian Dairy Industry.
- Used by Fonterra, Dairy Farmers Group (Aus), Bonlac, Murray Goulburn and Nestle.
- Customised to exceed the requirements of the US Dairy Industry and suitable for big and small processors

### See us at the 2008 World Dairy Expo in Madison

We would be delighted to meet with Dairy Processor Companies, Milk Testing Labs and potential partners to discuss where Madcap may add value to your organization.
